Q1. Can I print data on an envelope or postcard?

Operation procedure

Open the file in the application, and click [File]. Then click [Print] from the menu.

2. Select this product from [Select Printer] (or [Printer Name]) then click [Preferences] (or [Properties]).

In [Original Size] on the [Basic] tab, select [Envelope] or [Postcard].

♦ Various sizes of envelopes are available. Select the correct paper size for the envelopes you have loaded.

FAQ

Execute printing.

Load envelopes or postcards into the Bypass Tray with the print side facing down.

If the paper setting of [Bypass Tray] in this machine is the same as that of [Original Size] in step 3 or [Paper Type] in step 7, printing starts without further setting.

If the paper setting is different, the following screen appears. Tapping [Complete] starts printing.

➡ If you cannot tap [Complete], remove the envelopes or postcards loaded in the Bypass Tray and reload them, then tap [Complete].
